SIFTON AND MACDONALD  
TO OPPOSE EACH OTHER IN BRANDON.Macleod Conservatives Prefer Haultain, But  
Accept Bennett.

Ellis, M. P. for St. John, Is a Senator.

John V. Ellis, M. P., succeeds Senator Burpee, in the upper chamber.

Hon. Clifford Sifton, Minister of Interior was welcomed by a large gathering in Regina.

Hon. Clifford Sifton was nominated at the Brandon liberal convention and delivered an address on the issues of the day.

Premier Macdonald was nominated by the Brandon conservatives at the Sauris convention to oppose Hon. Mr. Sifton, the minister of interior. He accepted.

At the convention of Alberta conservatives held at Macleod the nomination was first given to Premier Haultain who declined it. R. B. Bennett was then nominated and accepted the honor.

## South African War.

CANADIANS ARE THE STUFF.

Strathcona's Casualties at Badfontein.

Another Manitoba Dead in South Africa.

Canadian Invalids.

Roberts cables that 125 Mounted Canadians on Wednesday repulsed a large force of Boers with two guns, who tried to surround them. The performance was very creditable. Major Saunders and Lieut. Moodie, of the N. W. M. P., were slightly wounded. D. J. Johnson, of Pincher Creek, was wounded, and Sergt. McCulloch, of the N. W. M. P., is missing so is Dupont, probably of Pincher Creek.

Major Laurie, of the Strathcona's, is among the Canadian sick in South African hospital.

Dr. King, a Manitoba college graduate with the Mounted Rifles, died at Johannesburg.

A further list of Canadian invalids who reached England from South Africa on the Steamship Lake Erie, is published. The names include private Cowan, Portage La Prairie, and Lieut. Layburn of "A" Co., Manitoba corps in the first contingent. Trooper Ruth received a warm welcome to his home in Carman; a public demonstration being accorded him. Bombardier Hope, "O" battery, R. C. A. was wounded at Warm Batha. Bombardier Hope belongs to Eastern Ontario and was a member of the 20th, Lorne rifles before enlisting in the Royal Canadian Artillery.

The following casualties are reported near Badfontein, Sept. 4: Lord Strathcona's Horse; Severely wounded 98 Private A. C. Garner, left shoulder and right thigh; missing 335 Sergt. L. A. Logan; 297 Private A. Jones; 284 Crickshanks; 465 Sergt. J. Brothers. (Signed), General Natal Army. A. O. Garner is from Moosemin; J. Brothers is from Arthur, Ont.; C. Crickshanks is from Red Deer; N. W. T. A. Jones is from Portneuf, Eng.; W. W. West is from Nottingham, Eng.; H. J. Aggie is from Rockbury, Mass.; and A. E. H. Logan is from Folkestone, Eng.

## The Chinese War.

Germany and Britain Will Not Let Go Their  
Hold on China.

The Forbidden City Desecrated.

The allies marched through the Forbidden City at Peking on Aug. 28th. About 1,500 more British troops have landed at Shanghai.

Germany and Britain are holding out in respect to retaining their troops in Peking and the other powers must compromise.

## Scrip at Victoria.

Victoria, Sept. 7th.

The commissioners finished issuing scrip here on Wednesday and left by train this morning for Seattle. Lake having been detained by non-arrival of teams.

Scrips issued 211 of which 73 were money scrips and 138 land. The payments passed off quietly and good prices were realized; money scrip selling as high as \$90 and land \$150.

C. V. Alloway started down on Monday to join the other commissioners there.

J. S. Dennis, deputy commissioner of public works for the Territories, came in on Tuesday's train to look after the starting of the Battleford ferry across the river.

## General Telegraphic News.

## WISE MEN OF THE WEST.

For some time past there have been serious differences amongst the liberals of British Columbia in regard to provincial politics. They fought each other and fought hard in the recent provincial elections. It was fondly hoped by many who are not the friends of liberalism—whatever their party name may be—that the differences thus arising in provincial politics would be carried into federal politics—as indeed the ill judged dismissal of Lieut. Governor Melnis made very likely. But the liberals of British Columbia are not so narrow minded as would be good for the opponents of liberalism. On Monday evening Aug. 27th, a conference of some 50 of the leading liberals of the province was held in Victoria. Amongst those present were Hon. Joseph Martin, Senator Templeman, Hewitt Bostock, M. P., Smith Curtis, M. P., J. C. Brown, M. P., W. B. Melnes, M. P., P. J. Oliver, M. P., James Stables, M. P., P. H. B. Gilmour, M. P., and E. C. Smith, M. P. For Southeast Kootenay. There were present delegates from Victoria, Vancouver, Nanaimo, Westminister, Carleton Place, Kootenay and other sections of the Province.

To those who have followed recent political events in British Columbia this list of names speaks eloquently of a willingness to drop local and personal opposition in a common cause. Particularly in view of the subsequent proceedings reported as follows by the Vancouver World:

"The delegates appointed to represent the liberal association of Vancouver were Hon. Joseph Martin, H. B. Gilmour, M. P., J. C. McLagan, Robert Kelly, and J. H. Seukler. The latter not being able to attend in consequence of his being suddenly summoned to Ottawa, Rev. A. E. Green, of Mount Pleasant, who had been nominated as an alternate, represented Mr. Seukler."

Upon the assembling of the conference which lasted from 9 o'clock until considerably after midnight, Hon. Joseph Martin was chosen to preside and H. L. Drewry named as secretary. Mr. Martin addressed the gathering, outlining the policy which he suggested should be formulated and presented to the federal government for its consideration. During a discussion upon the programme to be presented to the government with a recommendation for its adoption as the policy of the government, the facts were brought out that it was not the intention of the conference in any way to dictate to the electors of any of the constituencies of the province the course they should pursue in either selecting candidates or as regards the manner in which the contest in their respective constituencies should be pursued.

The principal speakers of the evening outside of Hon. Joseph Martin were: Senator Templeman, Hewitt Bostock, H. B. Gilmour, J. C. Brown, J. C. McLagan, J. McMinn, C. W. Munro, M. P., Hays, Rev. A. E. Green, J. C. Brown, John Tagg, Mr. Pratt, R. L. Drewry, Mr. Hanna, and Robert Kelly. These and other speakers all expressed their gratification at the large attendance of representative men present, and felt assured that much good would result from the deliberations of the conference. Many questions of importance not only to the liberal party, but to British Columbia in general, were discussed.

Twelve gentlemen were selected to act as an advisory board representing the various constituencies in this province in conjunction with the members in the commons.

Votes of thanks were passed to the chairman and secretary for the services rendered by them. The meeting then dispersed."

This report does not indicate any sacrifice of principle on the part of the prominent persons concerned, nor does it indicate a union from improper motives. But merely a common sense appreciation of the necessity of sinking one set of differences for the purpose of achieving an object upon which all are united—that is the maintenance in power of the liberal government, subject to the engraving upon its policy of features of special interest to the great Pacific Province. It is to be regretted that the leaders of liberalism in Manitoba have not shown themselves as wise in their generation as those of British Columbia.

## A PATRON VIEW.

Regis. Standard.  
Mr. Oliver did not depart from or relinquish any of the independence of judgment which he asserts his right to maintain, yet he did not come out in opposition to the government in the way many expected he would.—Edmonton Post.

It is probable that in spite of the government's many short comings Mr. Oliver still gives it the preference as against the conservative party. The right to criticize, and even oppose a party on certain issues, does not involve opposition in toto. Mr. Oliver fully recognizes this and the government seems willing, in his case, to accept support of that kind. It would be well for the party had the government been as tolerant towards others in that respect as it appears to be towards Mr. Oliver.

## THE CANADIANS.

The request by Lord Roberts that the first Canadian contingent should remain in South Africa beyond the term of their enlistment is the greatest compliment that has yet been paid them. Smooth reading despatches are all very well, but they may be written to hide rather than to tell the real opinions of the commander. But when the request is made for continued service of such a small body of troops forming part of such an immense number, it can only mean that the man so selected have proven themselves at least thoroughly satisfactory in the work in which they have been engaged. The request shows more than that. Unless Lord Roberts had reason to believe that the men would accede to the request he would not have made it. No one knows the extent of the compliment better than he, and he would certainly not have paid it if it were not certain to be responded to. That the men are willing to stay and continue the present arduous campaign to a finish speaks more for their devotion to the imperial cause than the first offer for their services or even the actual services which they have since rendered. They have satisfied curiosity, they have faced danger, they have reaped glory. Nothing remains now, but greater danger and harder knocks than have yet been faced. But now is the time when the knowledge that they have gained and the knowledge that has been gained of them will be most valuable. This is the time when their best services can be rendered, and anxious as they are to see home again, and although by the terms of their enlistment they could not be compelled to stay, there is no doubt that they will and with a good heart. This is the hardest trial of all on the men and their waiting friends, but having done so well so far there is no doubt that in this supreme test—of staying power—they will be found to be the pure gold, only out of which great empires can be built.

## THE GALLAGHER-HULL CO.

The Gallagher-Hull Co. have commenced an active fall campaign in the bacon trade. They commenced slaughtering a few days ago and have enlarged and improved their premises on the south side so as to handle a much larger trade than ever before. A new 20 horse engine and boiler has been installed giving a total engine power of 35 horse power, a new engine room has been built, the slaughtering room has been raised a story, the lard tank capacity is being doubled, a new brick smoke house 12x22, in two compartments is under way, and preparations are being made to add a cold storage building 40x40 two stories high with basement. The basement walls will be of brick and the upper structure of frame. The basement and upper shall be completed this fall and ice taken out this winter. The cold storage fittings will be put in next spring.

When Mr. Gallagher put up his buildings three years ago they seemed to be far in advance of the requirements of the district, but the trade has grown with the ability to handle it, until now the original capacity is more than doubled throughout, and from present indications will be fully taxed to handle the trade offering.

Formerly hogs were only offered for sale in the fall and early winter, after the crop of the season was threshed and could be fed. Now, however, the district is far enough advanced that grain is held over from year to year, and hogs are brought in more or less all summer. The shipment of live hogs from Edmonton during the current summer is estimated to be worth fully \$35,000, and the season for delivery of hogs is only opening. The live shipments went to Kootenay and Calgary. Their amount is an indication of the value of the markets of the Kootenay to the farmers of Edmonton. A great deal of the cured bacon also goes to Kootenay, and this has brought about an important change in the character of the trade. At first when the northern trade was the only outlet, large fat hogs were most wanted. The larger and fatter the better. Now, smaller animals with a larger proportion of lean meat bring the highest prices. The demand is for the same class of hogs here as in the East.

It would be difficult to over estimate the advantage which the establishment of this pork curing industry has been to Edmonton. The ready cash market which it has afforded the farmer for the damaged grain and waste products of the farm has had not a little to do with the great prosperity and rapid growth of this district. By providing the market and handling the business so tight it grew with the growth of the country Mr. Gallagher at first and now the Gallagher-Hull Company, have helped others while helping themselves.

The present price is from \$4.50 to \$4.60 live weight according to quality, a good paying price, as everyone will agree.

## THE FIRST CONTINGENT.

An Ottawa despatch says: Colonel Otter's parade shows 560 of all ranks at headquarters, July 20. Out of 45 officers who went from Canada two have been killed and died of wounds, two have been transferred, four have been invalided to England. There were 835 of the men in South Africa, 37 had been either killed or died of wounds, 20 were dead of disease, 12 had been transferred and 198 invalided to England.

During August the land department of the C. P. R. sold 32,100 acres, for a total of \$103,480.75.

## PRESSED BRICK.

P. Anderson opened his second kiln of pressed brick on Monday. The results of the burning are very good, although it is only the second trial and the weather has been unfavorable. This was a test kiln and a number of varieties of clay were tried and results carefully noted. Samples of the building brick and also of the foundation brick are now on view in the window of the Bulletin office, and have been very favorably commented on. The building brick is of good color and is larger than the ordinary unpressed brick. It is 8-7-8 x 4-1-4 x 2-1-2 inches. The foundation brick is of lighter color and somewhat smaller. In this district where stone is scarce brick must be the principal material of permanent buildings, and it is a good thing to have the various kinds of clay tested by different methods for different purposes. Foundation brick will be a great necessity here for all time, and the production of a good article for this purpose is a great advance in the building trade. Part of Mr. Anderson's experimental burning includes samples of terra cotta and pottery ware showing a very fine grain. The property is purchased from the estate of Mr. Kenneth Macdonald at the east end of town and is on the level above the river valley. The brick making outfit is very complete, power being furnished by a 30 horse power engine. The capacity of the machine is 16 to 25 thousand per day of ten hours. At present Mr. Anderson is burning with wood, but he is preparing to burn with coal, of which there is a mine directly under his brick yard. Another small kiln will be prepared and burned as soon as the weather permits. Mr. Anderson is entitled to great credit for his enterprise in putting in such an expensive brick making plant, and his success will mean quite a step in advance for the district.

## OUT FROM THE NORTH.

Wm. Irvine, one of the old time Hudson's Bay employees, came in from Mackenzie river on Tuesday. Mr. Irvine joined the Hudson's Bay Co. in 1862—38 years ago. He came out the same year by way of Hudson's Bay wintering at Norway House, from where he moved to Mackenzie river, residing there for the past 37 years. This long seclusion was broken only once, three years ago, when Mr. Irvine came out to take his children to Prince Albert, where they could receive an education, and where he now goes to join them. Mr. Irvine left for the south on Wednesday.

Some 85 people, including passengers and boatmen, arrived at the Landing on their way out from the north. The Wrigley came up to Fort Smith and the Athabasca from Smith to McMurray from whence they came on by flat boat.

The body of J. G. Ormhard, who died on Peel river during the Klondike rush, was brought in and is now at the Landing awaiting shipment east.

## YUKON PETITION.

During the visit of Lord and Lady Minto to the Yukon His Excellency was presented with a statement of grievances felt by the people of the Yukon, which closed with the following petition:

Wherefore, your petitioners pray that Your Excellency will take means to bring before your advisers and the parliament of Canada:

First—The necessity for immediately going away with or at least greatly reducing the present royalty tax on gold mined in the Yukon territory.

Second—The necessity of preparing roads and bridges and affording free means of communication within the Yukon territory.

Third—The necessity of opening for location to free miners all parts of the Yukon territory owned by the government which are fit for placer mining.

Fourth—The necessity for reducing the present fees for free miners' certificates and for recording and renewing placer mining claims.

Fifth—The necessity of altering the hydraulic mining regulations so as to secure for the free miner the right to locate, record and work any ground which is fit for placer mining, whether covered by a concession or not.

Sixth—The adoption and enforcement of such mining regulations as will encourage to the utmost the prospector first, the minor second, and the investor third, and throw open the country for the fullest and freest development.

Seventh—The necessity of granting representation to the people of the Yukon of at least two members in the House of Commons of Canada.

Eighth—A legislative council wholly elected by the citizens of the Yukon territory.

Ninth—The necessity of putting the liquor trade of this territory under such regulations as to subject it to the laws of trade and insure commercial freedom.

Tenth—Establishment of proper courts and a court of appeals in and for the Yukon territory.

Eleventh—The necessity of securing or establishing a free British port of entry on the western coast of America, within reach of the headwaters of the Yukon river, in order to encourage the trade and commerce between the Yukon territory and the other portions of the Dominion of Canada.

Dated at Dawson, this 14th day of July, A. D. 1900.

And your petitioners will ever pray,  
DONALD MCGREGOR,  
Chairman of Citizens' Committee.

JOSEPH A. CLARKE,  
Secretary of Citizens' Committee.

## BUSINESS IN WINNIPEG.

Commercial, Sept. 1st.

Business has again been adversely affected by the weather. The week has been a wet and stormy one, which has delayed farming operations and all sorts of outside work, and besides it has worked considerable harm to the grain in stock. This has reacted upon business in a detrimental way. The grain market is quiet, waiting the new wheat. The first of this went through this week, four cars which graded No. 1 hard, having gone to Fort William. The cattle market has been lighter owing to storms in the west. The labor situation has been improved by the settlement of the strike of C. P. R. shop hands. It is parties agreeing to arbitration. Bank clearings at Winnipeg, while still slightly larger than a year ago have not maintained their rate of increase, being only \$34,852 greater during the week ending Thursday, whereas the previous week's increase was \$412,246.

## MANITOBA MARKETS.

Commercial, Sept. 1st.

The local situation in wheat remains unchanged. There is next to no business doing. The price of 1 hard has ranged from 78 1/2 to 80 spot Ft. William, and after the close of yesterday's markets 79 1/2 was the best bid obtainable. Owing to the very unfavorable harvest weather over Manitoba the past week, 1 hard has been held more stiffly as it is considered the percentage of 1 hard in this year's crop will turn out small. 2 hard and 1 northern are 3 1/2 to 4 under 1 hard and 3 hard 8 under 1 hard.

The oat market is well supplied with old oats and prices are steady. Only current requirements are being provided for by buyers as new oats will be in shortly. Good quality feed oats are worth 38¢ per bushel in car lots on track here, with holders in some cases asking more.

There is no business doing in barley. Prices are quoted nominal at 45¢ per bushel on track.

## FROM TROOPER REID.

The following letter has been received by Mrs. Geo. A. Reid from her son, with the Mounted Rifles. The letter is written on July 21st from 25 miles east of Pretoria. In part, the letter states:

"We went out yesterday under Lieut. Chambers to burn prairie and do some scouting about three or four miles east. I was on the extreme left flank and was fired at from about a quarter of a mile off, the bullet going about 30 feet behind me. We saw the Boers in force on the opposite ridge, and that is where we expect to encounter them when we march. Generals French and Hutton are now on the right flank. Three or four days ago Lieut. Moody and four men, of whom I was one, were sent out to scout the ridge that we burnt yesterday. We extended about fifty yards apart and headed right for the summit of the ridge. We were within 150 yards of the top when we saw three men in the grass watching us. Apparently they didn't know whether we were Boers or British. We stopped and watched them and saw them take a fourth man. They then took up their rifles and let go the bullets coming pretty close. As soon as their guns went off the whole ridge seemed alive with them, about 25 or 30 shots being fired at us before we got down out of sight. The pony I had, (and have yet) was just about played out like most of them and of course I was away behind, getting the biggest share of the scare. Luckily we got off all right. You can't imagine the queer feeling a man experiences heading for a kopje feeling sure someone has a bead on you from behind a rock and just waiting till you get near enough to let go.

The weather is getting a little warmer now at nights so we do not suffer so much, and sleep and feel much better accordingly. We are doing patrols, scouting, etc., every day; it is very monotonous. Capt. Cuthbert read out a telegram from the Queen to Lord Roberts regarding a representative squad of men from each regiment of colonials being sent by way of the old country on their return to take part in the parade and be reviewed by Her Majesty. We were asked, those that wanted to go direct to Canada, to stop forward. No one responded so we will either all go, the boys say, or none at all.

The Boers have sent their women and children in to Pretoria from the laagers, so they must intend to put up good scraps. We hope they will as we are all sick of moving here, there and everywhere and not being able to catch them. We had a scrap Monday and Tuesday in which two lieutenants were shot dead and one man and four wounded while passing over this ridge we saw the New Zealanders lost 25 captured and some wounded. We occupied the ridge that night. The enemy knew we were up there and were afraid of the "cursed Canadians" as we killed and wounded quite a number, about 25 being killed right here on the kopje. We are living pretty well yet, being able to commandeer quite a lot from the farm houses, getting eggs, chickens, meal, etc. I am looking forward to a good trip home. We just have 100 men now, out of our whole battalion, so that shows the hardships we have gone through. However, we have transferred his Colt gun to our battalion, saying he wants to be with men who want to scrap and not run away, as some of the others did."

## WAR NOTES.

Pretoria, Sept. 1.—French has succeeded in liberating about 2,000 prisoners. The British operations east of here have been delayed by the fog that prevails in the mountains. Small batches of prisoners are being captured daily both to the north and east. Scattered parties of snipers annoy the railway occasionally. Steyn has joined Kruger. The columns of Mafeking and Ian Hamilton left for the east to-day. De Wet's force is camped on a hill south of Nylstroom, but the whereabouts of De Wet himself is uncertain. One report is that he has been to meet Kruger. Another is that he is at Pietersburg, and still another is that he has left for the southwest. French executed a brilliant flanking movement and is now at Doornbosch, overlooking Waterval-hoven. The forces of Paquet and Hichman are still in the north. Buller is occupying Helvetia.

## SCRIP AT BATTLEFORD.

Sept. Aug. 24th.

The scrip Commissioners have completed their labors in this part of the country and departed for Prince Albert on Monday afternoon from whence they will go down the river to Cumberland House. They issued forty-nine scrips at Onion Lake and twenty at Bressayor, including ten land scrips issued at the latter place which were retained for the present by the Commissioners. During Monday forenoon several claimants for scout and home-guard scrip were heard and their applications taken. On the whole, considering the very meagre evidence often given, the decisions of the Commissioners have been very impartial. A local celebrity, Joe Mistynew, was a material witness in many of the cases heard here and made a pretty good thing out of it financially, although his conscience if he has any, must have given him many a twinge.

Many cases have been reserved for the decision of the government, and these, together with the scrips which will likely come up again next year, when it is to be hoped that they will be settled for all time.

## C. P. R. STRIKE SETTLED.

Winnipeg Tribune: The employees of the C. P. R. shops from Fort William to the coast, who went out on strike one month ago, returned to work at 1 o'clock to-day. The schedules of the machinists, the allied mechanics and the boiler makers were all signed late last night, and the men would have started work this morning, but notice could not be sent to all in time.

The number to commence work is about 650, divided as follows: Winnipeg shops, 300; other parts of C. P. R. shops, 350; other parts of C. P. R. shops, 350; other parts of C. P. R. shops, 350.

The only matter now in dispute is the rate of wages to be paid the machinists, and this will be settled by arbitration, Mr. J. A. M. Atkins, arbitrator for the C. P. R., and President O'Connell, of the Machinists' International Union, will meet this afternoon to try and select the third arbitrator.

A subscriber writes: "The serving of an ultimatum by the carriers of the lines west of Fort William, desiring a settlement of the present strike crisis on the C. P. R. within 10 hours, had the desired effect of bringing the C. P. R. officials to a speedy decision."

## KOOTENAY PRICES.

Commercial, Sept. 1st.

Market steady and prices unchanged as follows:

Butter—Mammoth creamery, 23 and 24; choice dairy, 18c.

Cheese—New cheese, 13 1/2 to 14c.

Eggs—Fresh, 20¢ per dozen.

Oats—Per ton, \$32.

Wheat—Per ton, \$22.

Flour—Mammoth, \$20; shorts, \$22 per ton.

Hay—New, per ton, \$23.

Potatoes—New, \$17 per ton.

Oats—Per ton, \$29.

A Vancouver despatch of Aug. 27th, says: "Harvesting and threshing has been delayed by continued wet weather, but at this writing it is not thought that the rain will last long enough to damage the grain. The salmon pack has proved almost a complete failure, not more than one-tenth of the estimated pack being put up on the Fraser river."

Now is the season of the year when the prudent housewife prepares comforts for the coming winter by laying up stores of Preserved Delicacies for the family consumption.

Be Prudent:  
Be a comfort to yourself and an everlasting blessing to your family.

WHY?

Why is our store always crowded?

Why is our business increasing?

Simply because we keep in stock all what people call for and that we sell our goods ten per cent. cheaper than any other store

GERMAN BAPTIST CHURCH.

## PORT SASKATCHEWAN.

Messrs. E. C. Pell of Edmonton, and W. H. Miles, of Winnipeg, were Fort visitors the latter part of last week. Mills is travelling freight agent for the C. P. R. and while in the Northwest on business, is also enjoying an outing.

The liberal meeting held in Mariage's Hall Friday evening was largely attended, considering the threatening weather. Mr. F. Oliver, M. P., delivered the evening address. Mr. Cross, of Edmonton, was present and opened the meeting with a short talk. Dr. Aylen was chairman.

Bellamy & Co. of Edmonton, have recently established a branch of their implement business here, and will soon erect a suitable building. Mr. T. H. Smalley will have charge of this new enterprise added to our town.

Harry Chrisman and Chas. Hilker, of Edmonton, arrived at the Fort Sunday p. m. en route for a "happy hunting ground" (with plenty of water) where they expect to spend the national holiday shooting ducks. No doubt these enthusiastic nincoms will return home laden with birds.

A new ship repair shop in town. With the co-operation of those needing repairs on their foot-gear, "many soles can be saved." Those not familiar with streets and numbers, watch for the sign, a large wooden boot.

It is seldom the past two weeks, that when one enquires, "where's Jim Graham?" that any certainty in answering is made, only that he is out placing a Maasy-Harris binder.

Frank Goodie's dog, "Jack" received an ugly scold at the hands of some unscrupulous chump, rendering him of little value for hunting ducks this season.

Shem & Co. have recently put in a new Fairbanks' weigh scale. This will be a great convenience to both this firm and the town. Hereafter, hay and coal can be actually estimated in place of being bought by guess.

More new Russian immigrants these days, beating the trail toward Edna and "Beaver Creek" their land of "milk and honey."

Mr. White, who conducts the livery business, is improving his premises with quite an extensive addition. Let the good work go on, all these improvements are evidence of a rapid increase in business.

Dr. Aylen's new drug store building is about completed, so as to be occupied. This is a substantial building and a credit to the burg.

The Farmers' Milling Co. are making some necessary changes, before cold weather is here, in the way of placing their water pipes under the ground and building a coal shed.

Little Howard White has been dangerously ill for several days.

## VEGREVILLE.

Fine weather after the snow storm; which put the grain down pretty flat. The grain has risen a good deal since, and the farmers think they can save most of it yet. A good deal of wheat would have been in stock if the storm had stayed away for a few days longer.

Lots of land hunters have been here lately. All the best homestead land is taken up for several miles around here, but there is plenty still vacant further east. There have been three or four races from here to Edmonton, some riding all night on horse back to reach the land office first. It is too bad that the land office at Beaver lake is closed now, when there would be so much business done at it while this part of the country is settling up.

Mrs. G. W. Howard has been very sick, but is now on the mend slowly.

Mrs. Pilkey has been on the sick list also, but is better now.

Mr. Abbott has had the bad luck to lose a good horse since he has been out here.

Mr. Warwick has fire head of horses sick.

Vegreville is rejoicing over a big store that Mr. Lambert established recently.

Aug. 30th, 1900.

## LETHBRIDGE.

News, Aug. 30th.

The balance of the contracts for grading on the St. Mary's river railway were let at the end of last week. B. Whitney has two and a half miles south of Magrath, and the settlers of Magrath will complete the balance. Rapid progress is being made at the Stirling end and tracklaying is about to be commenced. The management expect to have trains running over the branch by the middle of October.

J. H. Ross, commissioner of public works, and Wm. Pierce inspector of mines, arrived here on Tuesday, and in company with G. G. Anderson and M. Barford, drove out to make an inspection of the town canal. We understand that everything was found perfectly satisfactory. Messrs. Ross and Dennis left on last night's train for the east.

Inspector Antrobus, of the North-West Mounted Police, died recently in Brooklyn, N. Y. Major Antrobus joined the force at the time of its organization and followed all the grades from corporal to inspector. He was stationed for a long time at Calgary. He was well known throughout the Northwest.

A slight frost—the first of the season—occurred on Sunday night.

Four inches of snow fell at Cardston on Saturday.

The rate on wheat and corn from Chicago to Montreal has been reduced to 3-4-4 to 4-4-4 per bushel against 6-1-2 to 7-0 a few weeks ago.

## PRINCE ALBERT.

News, Aug. 29th.

Threshing commenced in the Rosethorn district on the 23rd inst. The sample of wheat is excellent, and the yield heavy.

Wheat harvesting in the district is about half completed. With another two weeks fine weather, one of the best crops ever gathered in Saskatchewan will be safely housed.

Coun. Leroux gave notice of motion at the last council meeting that he would introduce a by-law to raise money by debenture for the purpose of putting in waterworks.

The rate of assessment for Prince Albert for the present year is as follows: Municipal, 5-1-2 mills; debenture, 3-3-4 mills; school district No. 3, 8-1-4 mills; total 17-1-2 mills.

The first new wheat of the season for Saskatchewan was three car-loads placed on track at Saskatoon on Friday last for shipment. It is understood that 75 cents a bushel was paid for it, but this figure is considerably above export value at the present Fort William quotations.

Barley was cut on August 1st and threshed on the 10th, (the farm of R. C. Smith, Steep Creek). Wheat was cut there on the 13th and the samples of both grains are excellent.

At a special meeting of the town council Mr. E. L. English was heard regarding a gasoline fire engine which he could sell the town at a much less cost than a steamer of the same capacity, or he would put in a waterworks system, which would cost on a rough estimate, some \$40,000. The understanding was finally arrived at that a by-law to raise \$40,000 for a waterworks system would be submitted to the people to be voted upon, and in the event of an adverse decision on the part of the ratepayers, the council would proceed to purchase an engine. At any rate by-law, for these purposes will be introduced at the next meeting of the council.

## A LETTER HOME.

Trooper Lowry, Strathcona Horse, in a letter from Greylingstad, July 18th, says: "Here we are in the heart of the enemy's country. We sleep with our boots on, or at least are supposed to, and to be on the safe side have three Maxims outside our tent. About 300 of the regiment went out with Gen. Clary's brigade yesterday, leaving about 100 of us with a large convoy and field hospital and the remnants of a regiment to hold the position. The Boers are quite plentiful and plainly in sight from the hill, but they keep well out of range. The Strathconas were in the brigade that marched towards Standeria yesterday. They got only about four miles last night as the Boers were troublesome. This morning the boys had a hot little scrap. We watched proceedings from our big hill and saw the first guns come into action and drop a few shells among the enemy. The Boers then retreated from their position helter skelter on their horses, with the Strathconas in hot pursuit. We haven't heard results yet. Trooper Lowry then recounts the affair at the Spruit where the Boers attacked while the Canadians were watering their horses. He says: "The bullets simply tore up the mud and the dirt all around and among us. We saw we had about lost connection with the main column and so we made a dash for a thicket about 500 yards off. About 20 men were late and the Boers were coming right down on them just as one of our Maxims arrived. The boys ran it through the back door and commenced operations through the front door when the Boers turned tail, but not before they left nine of their number on the ground and a number of other wounded who got away. Later they got even by taking six of our boys prisoners when they went scouting. This is the nature of the warfare the enemy are now engaged in, going about in small commands, not worth while for a column to pursue."

July 20th.

"We are on the march from Wash-Out Spruit of Bethel and on to Ensel probably. The Strathconas were advanced and flank guards yesterday and to-day also. The Boers kept up a running fight on our left flank all day yesterday. Several men in the infantry in the rear were killed. Some of our men had narrow escapes, but none hit for a wonder. Our draft of 50 joined us last week. They are not as dirty and ragged as we are yet—bah wai."

## THE EDMONTON ROUTE.

Northwest Review: The venerable and yet strong and hearty Lord Bishop of Athabasca-Mackenzie arrived here at the end of last week and preached a most edifying sermon in the cathedral of St. Boniface on Sunday evening. Last winter he made a perilous journey, full of hardships, to Great Slave Lake and the Providence mission, returning southward to Fort Liard, where, on the 60th parallel, wheat is harvested every year. Then he went north till the branching out of the delta of the Mackenzie river, whence he rowed in a skiff—he himself actually rowed a great part of the way—down or up various small rivers till he reached the Porcupine, down which he rowed to Fort Yukon. Thence he took a steambot to Dawson, and, after visiting the Oblate parish there, he took the usual route by Fort Selkirk, Lake Labarge, and the White Pass railway, which is now finished as far as White Horse to Skagway, and on southward through the maze of coastwise waterways to Vancouver. Monseigneur Groulx, O. M. I., who has been a guest at the archbishop's palace, returns to his northwestern diocese this week in company as far as Edmonton, with Father Lestane.

## PRESBYTERY MEETING.

The regular half yearly meeting of the Presbytery of Edmonton was held Tuesday and Wednesday in the Presbyterian church here. The following ministerial delegates were in attendance: Rev. McKinnon, Olds; Rev. Smith, Innisfail; Rev. Atkinson, Red Deer; Rev. White, Lacombe; Rev. Naismith, Leduc; Rev. Flemming, Strathcona; Rev. McQueen, Edmonton; Rev. Forbes, Fort Saskatchewan; Rev. Vetter, Josephburg.

The principal business was consideration of the home mission work. The report showed the work in a satisfactory condition in this presbytery.

A petition for moderation in a call was received from the congregation of Strathcona and granted. The Strathcona congregation becomes self-sustaining and receives a resident minister after Oct. 1st.

Rev. Mr. White was appointed moderator for the term newly inaugurated. The appointment of the several regular standing committees for the ensuing year concluded the work of the session.

## CHURCH DEDICATION.

The new Presbyterian church at Glory Hill, Stony Plain district, was dedicated on Sunday, the 2nd, instant, Rev. G. Vetter officiating. The baptismal service was also performed for the first time in the new church, and the cemetery adjoining the edifice was consecrated.

The church was built by the members of the congregation, aided only by a grant of \$75 from the mission building fund, who labored with untiring zeal for its completion. The building can comfortably seat 150. Altogether it is a most creditable structure and one of which the builders may be justly proud. The zeal of the congregation is further shown by their desire, unanimously expressed, for a resident pastor.

## THE NEW RAILWAY.

Lethbridge News.

Lethbridge will soon have yet another railway running into it, for although the new road now under construction starts from Stirling, it is but a branch of the Alberta Railway and Coal Company's line, and the trains running on it will undoubtedly run from and into the town as one of the terminal points, the company's repair shops, etc., being situated here. This cannot but prove to be a benefit to our town and another link in the chain of destiny tending to confirm and strengthen the position which we now occupy as the premier town of Southern Alberta. As in gravitation the larger mass attracts the smaller particles, so also in the growth of towns does a similar law appear to prevail. Given a town with a population of 2500, the terminal point of two lines of railway, and on the line of a great transcontinental railway, with the largest coal mines in the Northwest, excellent educational facilities, and other adjuncts of urban life, the advantages which such a town would offer to the manufacturer and mechanic—as against a small town or village obscurely situated and with comparatively poor railway facilities—are obvious and need not be dilated upon. The farmer, too, if he is wise, does not find choice make his home on the prairie fifty miles from nowhere, and the nearer he locates to a town where he can dispose of his produce at a good price, either for local consumption or wholesale shipment to outside markets the more valuable will both his land and produce become with the growth and settlement of the town and district. No town can have too many railroads running into it, and Lethbridge is no exception to the rule. The prosperity and growth of almost every town in the country appears to be proportionate to the extent of country tapped by the railway of railways running into it—the more numerous the feeders, the larger the town, appears to be the rule. The ultimate destination of the other end of the new line is Swift Current, a mining camp in Montana, close to the international boundary line, tapping on its way thither Magrath and Cardston. As the railway runs through the district watered by the irrigation canal, there is no doubt but that considerable farm produce will be shipped from points along the line to that camp, which is at present without railway communication and devoid of agricultural surroundings, but the bulk of the produce after the home consumption has been provided for, will certainly be shipped through Lethbridge to the mining towns of British Columbia. We have already one wholesale jobbing and commission house doing a large business in the Kootenay country, and with the growth of great quantities of farm produce within a few miles of town, this business offers prospects of large development.

## HORSE WILLS.

A very pretty wedding took place here on Aug. 23rd, when Miss Mary Borgwardt was married to Mr. S. Stanlake. The residence was nicely decorated for the occasion. The Union Jack and German flags floated side by side. The ceremony was performed at six o'clock by Rev. Mr. Forbes, of Fort Saskatchewan. The bride was Miss Annie Borgwardt. The bride was handsomely attired. Her veil was fastened with Orange blossoms, which charmingly harmonized with the Auburn hair and bright beaming face. The bride was given away by her father. The groom was supported by G. Dorland. After the ceremony a reception was held. A large number were present and a very social evening was spent. The bride was the recipient of numerous handsome and useful presents.

Frost has done some damage in this locality. Our neighbors Notre Dame de Lourdes boast of the quiet peaceful tone of their village. No doubt it is very tame. Our settlement is alive—lets people know it is living.

## DISPUTE ABOUT BONDS.

Winnipeg Tribune: Mr. William Mackenzie had a lengthy interview with Hon. Mr. Davidson this morning concerning the bonds on the Saskatchewan still remaining unpaid amounting to about \$45,000. The road has passed the inspector as being up to grade, and Mr. Mackenzie now wants the rest of the cash. There is, however, some difficulty in regard to certain stipulations of the contract which Premier Macdonald and his cabinet do not consider have been fulfilled, and so Mr. Mackenzie was notified that the bonds could not be paid until this clause had been fulfilled. Negotiations are now going on but it is at present impossible to learn from either side how the matter will be settled.

The trial of Bresci, the anarchist, who on July 29 shot and killed King Humbert, of Italy, at Monza, while his majesty was returning from a gymnastic exhibition, opened at Milan on the 29th. An immense crowd of people gathered about the court from early morning, seeking admission to the court room where only a few places were reserved for the ticket-holding public. The hearing began at 9 o'clock. Bresci sat in the dock, calm and indifferent. His counsel, Signor Mancini, head of the Milan bar, and the anarchist writer, Signor Morillo, made requests on various grounds, which were refused. It is said Bresci wrote to the judges declaring he would not reply to an interrogatory.

## FROM THE MACKENZIE.

On Tuesday there arrived from the north a number of returning miners, of the rash of '98, from points down the Mackenzie. Their names are: Frank Black, Fort Simpson; R. Pike, Nelson; H. S. Potts, Frank Lendner, Sam Beards, Wm. Frey, J. Buchanan, Wrigley, C. Harding, of the H. B. Co., Wrigley, and J. Hudson and family of the company's employ at Numan, also came out, having left the service.

Chas. Smith, the Klondiker, who originated the idea of transporting supplies overlaid in barrels, is at the Landing, having returned from Wrigley.

John Arnott and Donald Mackenzie are both at the Landing from Chippewyan.

J. B. Hardison, H. B. Co., agent at Fort Liard, also came in Tuesday and left Wednesday for the south. The other arrivals left this morning for the coast.

## SMALL POX QUELLED IN DAWSON.

Ottawa, Aug. 30.—A letter from Dr. Montzambert, chief of the quarantine service, states Dawson, Aug. 10, brings word that the outbreak of small pox there has been well handled by Commissioner Ogilvie and his staff. There have been no new cases reported outside of the isolation camp since July 20th.

## UNFAIR COMPETITION.

Battleford Star: Some time ago it was reported in these columns that the industrial school had secured the contract of re-shingling the buildings of the barracks and now we understand that they have taken the contract of taking the timbers of the old bridge out of the Battle river. Both contracts were let without tenders being called for, but the figures given are much lower than any other contractor could do the work for and comply with the law requiring them to pay current wages to employees on government contracts. The school, largely supported by government aid which comes from the pockets of the working men, is in a position to underbid any other contractor, since free food, clothing shelter are provided for its workmen. When they enter the field of workmen who have clothing, food and shelter to provide, not only for themselves, but for wives and families, it is time that something was done to prevent this competition. If this state of things is allowed to continue, there will soon be no work for our mechanics who will go elsewhere to the detriment of our town.

We have been trying to restrict Japanese and Chinese immigration into this country on account of the absurdly low wages for which they are willing to work but even they cannot compete with industrial schools, for it costs the Orientals at least something to live.

When industrial school children are old enough to do contract work they should be allowed to earn their own living, in open competition with other citizens, instead of being permitted to crowd tax-paying workmen to the wall.

The government supply the wants of the children and they should not find it necessary to go out and earn money. What is done with money earned by the pupils anyway? If it is devoted to give them a start in life on a reserve, the government should do that. And after all, do the industrial schools fulfil the purpose for which they were intended? It seems to us from personal observation and from what we have heard, that the majority of ex-pupils on the reserves are no better citizens than those who had not the benefit of an industrial school training.

## OLDS EXPORTS.

Farm produce shipped from Olds during the month of August:

Butter,	14,090 lbs.
Oats,	2,150 lbs.
Farm products,	870 lbs.
Hides,	260 lbs.

## RICH STRIKE ON STEWART RIVER.

Victoria, Aug. 30th.—News comes from Dawson that rich gravel has been found on Dornick creek in the Stewart river country. Men are taking out \$150 to the pan.

## TURNED DOWN.

London, Aug. 30.—"Dr. Leyd's interview with Emperor Nicholas," says a despatch to the Mail from St. Petersburg, "lasted barely five minutes. The czar said he was sorry he could do nothing for the Transvaal except to urge it to make peace, as he hated all wars."

The Trifolium, the conservative organ, at Threave, says it hopes the report is not true that Sir Charles Tupper has repudiated pamphlet No. 6, if it is, so it says, he has not acted for the best as far as the success of his campaign in Quebec is concerned, for it is perfectly useless for him to attempt to reconcile the sentiment of Quebec with that of the English provinces. "We hope this pamphlet will not be withdrawn, but on the contrary, it will spread profusely in our province for it is one of the best."

Winnipeg Tribune: Mr. J. S. Crawford, immigration agent, has returned from a trip to the Territories with a party of Kansas farmers looking for homesteads. The party stays at over at Brandon and Regina, and on the Edmonton line at Didsbury, Olds, Red Deer, Innisfail and other places. The party were greatly pleased with the appearance of the country, where they found many settlers from Kansas already located and happy.

## LOCAL

—Typhoid fever seems to be increasing in Winnipeg.

—W. S. Robertson returned last night from a trip down the line.

—Alex. McLeod leaves to-morrow for Vancouver where he will reside in future.

—Fraser & Co's saw logs have been coming down the river at a lively rate this week.

—Ralph Short, of Elora, Ont., arrived Monday on a visit to his brother, Wm. Short, here.

—Roads are good once more, except where deep sloughs exist. These are still rough in places.

—The section dredge did not go down the river as reported. It is now aground on the bar just above the bridge.

—The Otter Dredge Co. are having another dredge built. The screws are now nearly completed at J. Waller's yards.

—Rev. P. W. Woodsworth, Hamilton, conference, will preach morning and evening in the Methodist church on Sunday next.

—Messrs. E. C. Emery, W. S. Edmiston, G. J. Kinnaird and St. Geo. Jellett leave to-morrow for a week's outing at Big Lake.

—Jos. Brewster, who is putting ferries on the Athabasca and Pembina rivers, came in yesterday. The work is not yet completed.

—F. W. Annand, Dominion immigration agent at Halifax, went south on Wednesday morning, after a visit to the Galician settlement.

—The hill sides are beginning to take on the color of fall. These bright patches of color add greatly to the attractive appearance of the landscape.

—Alf. Johnson, formerly timber inspector at Edmonton a number of years ago, came in from the Kootenay last night on a visit to relatives here.

—A public meeting will be held in the council chamber to-night at 8 o'clock to arrange for a reception to their Excellencies, Lord and Lady Minto.

—The annual financial district meeting of the Edmonton district of the Methodist church will be held in the church here next week, beginning on Tuesday.

—The regular monthly meeting of the Woman's Hospital Aid society will be held in the council chamber on Monday, 10th Sept. at 3 p. m. A full meeting is requested.

—G. S. Coffey returned from the Athabasca river yesterday where he had gone to properly enter the body of his companion, Barank, accidentally killed near there last month.

—Hon. Jas. Ross, commissioner of public works, for the Territories, is expected to arrive on Tuesday's train to go down to Battleford with the new steam ferry for that place.

—Alfred Fraser, the New York representative of the great London fur house of Langsons, came in on Tuesday. This is Mr. Fraser's second visit to Edmonton. He left for the coast this morning.

—The Bulletin is in receipt of a letter complaining about the illicit sale of liquor at Athabasca Landing. The letter makes some very strong statements, but as it is not signed it cannot be published.

—Colin Fraser, trader of Chipewyan, left on Wednesday for the Landing and for Lake Athabasca. Jas. Ross, of Ross Bros., accompanied him to the Landing. Mr. Fraser sold his fur to Ross Bros. for \$8,500.

—Rev. D. G. McQueen leaves shortly to attend the synod home mission committee meeting which meets in Vancouver on the 25th instant. During his absence Rev. Mr. McQueen's pastoral duties will be attended to by Mr. Flemming.

—The annual picnic of the Presbyterian Sunday school was held in the grove on the agricultural society's grounds on Monday afternoon. There was a good attendance of children and teachers. Children's races and sports and a pleasant tea occupied the afternoon.

—His Lordship Bishop Grosverd, of the diocese of Athabasca-Mackenzie, arrived from Winnipeg on Monday's train, returning from a tour of the Mackenzie and Yukon districts of his diocese. He left for home by way of the Landing on Thursday morning.

—Calgary Herald, Aug. 31.—H. C. Hammond, of the firm of Osler, Hammond & Nanton, and president of the Calgary & Edmonton railway company, arrived from the west last night and left this morning for Edmonton with Superintendent N. E. Brooks and C. S. Lott, in private car No. 28. The party will return to-morrow.

—W. Pugsley, who was the purchaser of the Edmonton district railway charter from the town, has entered the New Brunswick government as attorney-general. The occasion is the re-organization of the cabinet caused by the resignation of Premier Emmerson and the elevation of Tweedie, who was attorney-general under Emmerson to the premiership.

—The body of the little nine-year-old son of Geo. Ball, of Cooking lake, who was lost on Friday last while out looking up his father's cattle, was found Wednesday by the searchers in a slough some distance from his home. The little fellow had died of exposure and exhaustion. For days neighbors and friends, assisted by the police, aided in the search. In all thirty-five people were out searching the surrounding country. Geo. Ball, the father of the little fellow, is a son of Wm. Ball, contractor, of Edmonton.

—J. H. Morris went out to Black Mt. yesterday.

—J. H. Johnson has disposed of his bicycle business and leaves next week for St. Paul.

—J. H. Matthews, has rented the skating property from J. H. Johnson and will conduct it during the coming season.

—The Northwest government will commence further improvements on the grade from the bridge to the top of the hill in Strathcona on Monday. The present grade will be smoothed with the grading machine and it will then be gravelled. This will make a permanently good road.

—Calgary Herald, Sept. 4: Latest arrivals at the Calgary immigration hall include A. J. Windtate, wife, two sons and three daughters, from Michigan to Calgary; Jacob Hohn wife, two sons and three daughters, from Nebraska to Edmonton and Charles Truman, wife and three sons and four daughters from Michigan to Ponoka.

—A new Masonic lodge has been instituted here under the name of Jasper Lodge, A. F. & A. M. The officers appointed were: J. J. Dunlop, W. M.; D. C. Robertson, S. W.; T. Bellamy, W. T.; G. H. Hutchings, Treas.; H. O. S. Wade, Secretary. The lodge will be pleased to receive into membership all brethren not affiliated with the lodges already in existence here.

—John Morris, chemical engineer and analyst, recently from England, who has made an expert examination of the clay in P. Anderson's brick yard, expresses himself as very well satisfied with the quality of the clay, which shows a large proportion of argillaceous matter, making it very suitable for the production of fire brick, and of a very good quality of building brick.

## HARVESTING

The down condition of the grain in this district has given occasion to persons of an inventive turn of mind to devise means for raising the grain so that it can be cut. At the present time a number of the blacksmiths in town are employed on a device the invention of F. E. Guthbert, which has this purpose. It is an attachment to a binder, and consists of five pieces of iron bar to each machine. Each bar is doubled back so as to make a sharp point, and so that the two ends will be six inches to a foot apart. One of the ends is fastened to a guard of the binder so that the point projects about two feet beyond the guard and in the same direction. The other end of the bar is then about six inches above the bar. Each of the five fixtures forms a wedge the point of which passes under the grain and the thick part forces the straw high enough off the ground for the reel to catch it by the time the cutter bar reaches it. Those who have seen the invention in operation say that it is very successful in all cases except when the grain is lying directly away from the machine. It is claimed that the use of this appliance will make it possible to cut even badly down grain at least on three sides instead of only on one thereby losing only a quarter of the time instead of half as is the case when the cutting can only be done one way. With or without the use of this appliance, the smoothness of the ground makes a great deal of difference to the success of the cutting. If the land has been rolled over the unadvised binder can pick up most of the grain by butting one way. But if the land is rough and lumpy it is very difficult to get the grain, and what is secured is not in as good condition.

## ANOTHER SCARE

The weather on Tuesday was very discouraging to those interested in the harvest—and who is not. The day was cloudy throughout, with a drizzling rain. It was not cold nor windy, but it stopped harvesting and what was worse hindered ripening. Great fear was felt that the rain would clear up with a frost. But the cloudiness continued all Tuesday night, and the weather was warmer towards dawn. Light on Wednesday morning than it was at dark on Tuesday evening. On Wednesday morning the clouds cleared away, the afternoon was warm, and the night clear, mild and breezy, with every indication of dry weather. But in this season all signs fail.

Interest allowed on deposits.  
A general Banking business transacted.  
J. S. WILLIOTT, Manager

## HARVEST.

Cutting has been going on briskly this week, except on Tuesday when it was delayed by drizzling rain. Very good work is being done, all things considered, but progress is slow, running from four to seven acres a day to each binder. The difficulty of cutting has caused an extra demand for binders and every implement dealer is set out and getting in more machines as fast as possible. The Bellamy Co. got in nine binders in one shipment and sold twelve of them. Twine is scarce, but is being milled in small quantities so as to keep the machines going. Each implement firm makes it a point to keep the machines which they have sold going with cord. As the great bulk of the cord required is already in the farmers hands there will be no final scarcity.

The weather remains warm, but does not seem to have finally turned dry, and grain is ripening very slowly. At the present rate of cutting most of it will have time to ripen before it can be reaped by the binders.

## HOTEL ARRIVALS.

Smith, Houston, Texas; John Amot, Chipewyan.

## ROBBERY AT CALGARY.

The Calgary Herald reports a serious robbery coupled with attempted murder in that city on Aug. 30th. A young man named Eugene McClelland, who had \$150 in his possession, was lured to a quiet spot on the bank of the Bow river. There he was robbed by two men, armed with guns and knives, and thrown into the Bow. He got out once and was thrown in again. But got out the second time and escaped. He was picked up by the chief of police while making his way to town. He had met one of the two men several times during the day, but the other he had never seen before. On Monday evening a man who gave his name as Williams was arrested in Calgary and identified by McClelland as one of the robbers.

N. F. Davis, M. P., was nominated by the conservatives to contest West Assiniboia against Walter Scott, the liberal nominee.

Dr. T. C. Spence, of Prince Albert, was nominated on the 4th, to oppose T. O. Davis, in Saskatchewan in the conservative interest.

Ottawa, August 31.—Private McKellar, of the second Canadian contingent, writing to his parents here, says positions are open there for all who desire to remain and take chances in South Africa.

## MARRIAGES

Sullivan-Zulinski.—At Edmonton on Tuesday, the 4th, in the Presbytery of the Roman Catholic mission, by Rev. Father Leduc, G. L. Sullivan to Martha Zulinski, both of Strathcona.

## SOCIAL.

On Wednesday evening a very enjoyable congregational social, given by members of the Presbyterian church was held at the residence of Alexander Taylor, Mrs. Taylor having kindly placed the house and grounds at the disposal of the guests. The grounds were prettily decorated with Chinese lanterns, suspended among the trees. Instrumental music, songs and recitations added to the pleasure of the evening. Among those contributing to the musical programme were: Rev. Forbes, Rev. H. A. Gray, who sang; Miss Ostrander, recitation, Mrs. Walker instrumental selections.

During the evening a pleasant surprise was given Rev. Mr. McQueen by the members of his congregation, he being presented with an address and a purse containing over \$100, as a mark of appreciation of his untiring zeal and the respect in which he is held. The presentation was accompanied by an offer of a leave of absence for a month. To the presentation Rev. Mr. McQueen replied in suitable and feeling language. Rev. Mr. McKinnon, at the close also spoke on behalf of the Presbytery, many members of which were present, thanking the congregation for the hospitality extended to them. During the evening refreshments were served by the ladies of the congregation, and a very pleasant and successful social evening was concluded by the singing of the national anthem.

FOR  
Fallen Grain.

Use the new fixture for Binders, put into use for the first time since storm which has turned down crop.

Will enable anyone to cut crop no matter how tangled.

Is cheap. Can be fitted on any Binder.

Can be seen in active operation on several farms close to town, or at my office.

SAVE YOUR CROP AND A LARGE EXPENSE, as with this new fixture you can cut the grain in three different ways.

Anybody infringing on this patent will be prosecuted.

F. E. CUTHBERT.

F. F. TIMS, Gen. Agent,  
Main Street, Edmonton.

## Will not Shrink

The rain may come and go, but its effect upon

## Shorey's Ready

Tailored Clothing

is nil. There is no shrink in it. The goods are all sponged and shrunk before being made up. Shorey's reputation is attached to each individual garment—you will find a guarantee card in the pocket.

It costs no more than the unsatisfactory kind.

Material, style, make and finish irreproachable. That's why we sell it.

Money back, if what we tell you is not true.
